

INSTALLATION OVERVIEW

FAA STC SA3502WE LEGACY Fiberglass Nose Bowl Replacement KE2-635A

MODEL DESIGNATIONS

Model Number	Product Description
KE2-635A	Replacement Fiberglass Nose Bowl

Product Description

The KE2-635A Legacy Replacement Nose Bowl has been developed to allow owners and operators of Univair (ERCO) 415 Series, Forney, Alon and Mooney M10 aircraft to replace their aging OEM aluminum nose bowls

The KE2-635A Fiberglass Replacement Nose Bowl provides the same fit, finish and appearance as the OEM aluminum article with the advantage of improved airflow, durability and ease of repair.

Airframe Qualification

Aircraft that have a standard airworthiness certificate are eligible for this installation.

Installation Overview

The KE2-635A Fiberglass Replacement Nose Bowl is designed and produced as an FAA STC / PMA approved direct replacement article; replacing the OEM aluminum fabricated nose bowl.

On initial installation the replacement nose bowl requires that it be fitted and drilled in a manner that insures the bottom and side cowls are positioned properly, and all items are in alignment prior to being fastened in place.

Note – if the previous nose bowl was equipped with a fresh air intake fitting; drill off the fitting and transfer it to the replacement nose bowl.
